

SESSION 706

Friday, November 3, 9:00am - 10:00am
Track: Improving Service Management

Life is a Process: Understand, Define, Execute

Kenneth Wendle

Instructor, consultant, speaker, Edify ITSM, Inc.
ken.wendle@edifyitsm.com

Session Description

You execute many processes each and every day, without even thinking about it. In fact, you're executing a process right now. Clicking on this session description is a trigger. Opening, reading, and comprehending these words lead you to say; Yes, I should attend this session. Join us for an entertaining, informative, and interactive session designed to provide you with a much deeper understanding of processes, what they support, what's needed to make them effective, whether they prevent or promote innovation, and more.

Speaker Background

Ken Wendle, known for his pragmatic and insightful advice, whether as instructor, consultant, or speaker, is a cofounder and past president of the itSMF USA and past member of the HDI Strategic Advisory Board. Ken is recognized for his pivotal role in creating awareness, adoption, and global expansion of ITIL and ITSM best practices. He is the author of numerous white papers and articles, and his entertaining presentations have been enjoyed nationally and internationally. Ken is also the only person (thus far) to have received two prestigious industry awards: the itSMF USA Lifetime Achievement Award (2007) as well as the HDI Ron Muns Lifetime Achievement Award (2016).

DRIVING SERVICE MANAGEMENT FORWARD

Life is a Process: Understand, Define, Execute

Session 706

Ken Wendle, FSM

Edify ITSM, Inc.

> Introduction complete.

Trigger acknowledged.

Verify input.

Presentation process initiated.

PRODUCED BY: **HDI itSMF USA** | **#SMFUSION**

Process Step 1: Agenda

- **Life is a Process**
- **What is a process?**
 - Exercise
- **The Anatomy of a Process**
- **Process Inaction vs. Process In Action**
 - Tools & Technology
 - Cultural Integration
- **Summary (Q&A Along the way!)**

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI itSMF USA** | **#SMFUSION**

**“Life is a process.
We are a process.
The universe is a process.”**

- Anne Wilson Schaef, Author

FUSION₁₇

PRODUCED BY: **HDI** *itSMF USA* | **#SMFUSION**

What is a Process NOT!

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI** *itSMF USA* | **#SMFUSION**

What is a Process?

Simply stated... a Process is:

“A structured set of activities designed to accomplish a specific objective.

A process takes one or more defined inputs and turns them into defined outputs.”

Copyright © AXELOS Limited 2011. All rights reserved. Material is reproduced under licence from AXELOS.

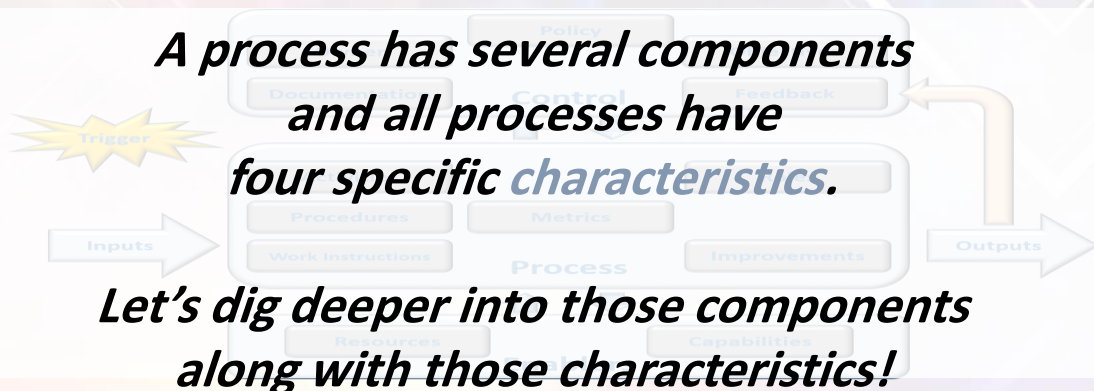

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI itSMF USA** | **#SMFUSION**

What is a Process?

A process has several components and all processes have four specific characteristics.

Let's dig deeper into those components along with those characteristics!

*“Process Model”
But First...*

Copyright © AXELOS Limited 2011. All rights reserved. Material is reproduced under licence from AXELOS.

FUSION₁₇

Exercise

The Paper Snowflake Process

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI** *itSMF USA* | **#SMFUSION**

Exercise

The Paper Snowflake Process

Process Steps:

1. Fold the paper in half
2. Fold into another triangle
3. Fold into thirds
4. Fold from the left
5. Fold from the right and make adjustments
6. Cut across bottom
7. Cut lines into triangle
8. Unfold Paper

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI** *itSMF USA* | **#SMFUSION**

Exercise (Part 2)

Procedures and Work Instructions

1. Fold the paper in half
 - Fold the paper from the upper left corner of the sheet of paper to the lower right forming a perfect triangle
 - Press down on the crease

Exercise

Procedures and Work Instructions

2. Fold into another triangle
 - Fold the paper triangle created in step one from the upper right to the lower left forming a smaller perfect triangle
 - Press down on the crease

Exercise

Procedures and Work Instructions

3. Fold the paper into thirds

Exercise

Procedures and Work Instructions

4. Fold from the left

- Fold the smaller paper triangle created in step two from the lower left to the lower right forming an even smaller perfect triangle.
- Press down on the crease

Exercise

Procedures and Work Instructions

5. Fold from right, and make adjustments

- Fold once more from the right to the left
- Adjust the fold so that the result is in the shape of an arrow, with a small up-side-down “V” shape at the bottom
- Press down on the crease

Exercise

Procedures and Work Instructions

6. Cut across bottom

- Remove the upside “V” shaped portion of the output of step 4 by cutting horizontally $\frac{1}{2}$ inch above the apex of the upside down “V”.

Exercise

Procedures and Work Instructions

7. Cut lines into triangle

- *Carefully* cut 3 small triangles along the “folded side” of triangle produced by step 5.
- Be careful NOT to cross the entire triangle

Exercise

Procedures and Work Instructions

8. Unfold Paper

- Carefully unfold the triangle to reveal your snowflake!
- Like “real” snowflakes, no two will be exactly alike!

“Life is a process of learning

- Lauren Hill, American Musician

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI itSMF USA** | **#SMFUSION**

So, what did we learn?

Process success requires:

- A clear idea of what the outputs should be
- Defining and using the right inputs
- More than process *activities*
 - Sufficient detail (Procedures & Work Instructions)
- The right resources
 - Funding, tools, etc.
- The right capabilities
 - Knowledge, understanding, skill sets, etc.
- ***Understanding the Anatomy of a Process***

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI itSMF USA** | **#SMFUSION**

Any Questions so far?

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI** itSMF USA | **#SMFUSION**

The Anatomy of a Process

Processes respond to specific triggers

- **Time Trigger –**
 - Every morning at 6:15 a.m.
 - Every Tuesday at 9:00 p.m.
 - First day of the month
 - Last day of the quarter (or year)
- **Occurrence Trigger –**
 - A phone call
 - An online “submission” (order, request, etc.)
 - Something (or someone) “shows up”
 - A “world event”
 - An infrastructure event
 - Information
 - Warning
 - **Exception**

This is a characteristic (#1) of ALL processes!

Copyright © AXELOS Limited 2011. All rights reserved. Material is reproduced under licence from AXELOS.

FUSION₁₇

FUSION₁₇

© Edify ITSM, Inc. 2017 unless otherwise stated

PRODUCED BY: **HDI itSMF USA** | **#SMFUSION**

The Anatomy of a Process

A Process Delivers Specific Results

| Process | Result |
|----------------------------------|---|
| Incident Management | Restored Service |
| Problem Management | Root Cause Determined |
| Change Management | Successfully modified Infrastructure |
| Availability Management | More reliable services, less unscheduled downtime |
| Business Relationship Management | Satisfied Customers |

... And so on.

This is a characteristic (#2) of ALL processes!

The Anatomy of a Process

Why?

- We want to provide better services (quality, cost, alignment)
- We may not know how - or have the capability - to measure the service directly
- So, we improve the processes with the understanding that better processes lead to a better service

“Even GOOD processes can be improved!”

Summary

- Processes provide the building blocks to Service Management success
- Process outputs must be clearly understood
- Processes need to be defined and properly designed in adequate detail
- Processes need to be enabled via the necessary resources and capabilities
- Processes need to be managed and controlled
- Processes aren't implemented: they take time & attention!
- Even "good" processes can be improved!
